Frend have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consengton progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the totals, every single case began with a Gold! If this had been attended to, all might have been well but, being neglected, under the fatal delusion that if we said "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of robarcies. Another, and another cold added fuel to the flame, and these tubercles began to soften and suppurate, leaving, by their ulceration, great cavities in the Lungs. Dr. Bernson Some time has chipsed since I gare a certificate that my wife had been greatly benefited by your Alterative Compound. I now take pleasure in saving to the public, that my wife had for three or four years been subject to the worst kind of spells of crawp in the stomach from dyspepsia. I had tried of several whom I thought to be the best physicians in the place and a great many differen medicines, with momentary relief. Being persuaded to try your distraince compound, I did so—and I am happy to asy that it has entirely cured her; and I would conscientiously recommend if to all persons suffering from diseases of the liver and dyspepsia.

N. B. ROBERTSON.

Ilensville, Sept. 23, 1851.

Dr. Blensoe—Having seen the publication of your Alter ative Compound, I think it my duty to say to the public, that I had been for years subject to spells of Cramp Colic, in its worst form; that I had tried almost every thing that is given by physicians, and never found any thing that would certainly relieve me, until I tried the above medicine, which was relieved me in every attack in less than an hour.

WM. B. LLOYD.

GRES COUNTY, Tenn., Dec. 23, 1851.

Dr. Blercon:—I feet that I should fall short of my duty to you and to those who are afflicted, were I not to further recommend your Alterative Compound. It has entirely relieved me, so that I have not had cause to take anything in two manies. I can est anything I want with impunity, and believe my health is as good as it ever is at my advanced age. Should I ever suffer from dyspepsia again I shall be sure to call on you. I am very respectfully your friend. ELIZABETH J. HARWOOD.

This is to certify, that I had suffered for many years with Dyspensis and Diseases of the Liver. I the Stone with a Cast from Eye, or Bush, than is ofgreater external diameter at the bottom that at the top, which is secured to the back by four botts, so that every block is in the form of a dove tall which gives greater strength to a Stone than any other method which is required in small mills, where the stone is run with great speed, and becomes dameerous if not strangly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it ton heavy.

The romantic, healthful and picturesque character of the locality at Baena Vista Springs is so widely and generally known through the numerous visitors who annually resort to the place for its medicinal waters, that the proprietors seem it necessary to say but little on the subject. Dr. Wenner is a physician of forty years' experience in the active practice of his profession, and has just returned from a tour through the Activern and Eastern States, during which he visited the best water-care establishments to the examination on the subject.

Dr. Engoses, though a vourger practitioner, has several years' experience, and brings with him into the establishment the professional devotion and energy incident to the earlier periods of life. The means for annuement and recreating are expected to bring with them two blankers, two conflicts or a leather bed, six large crash lowels, two sheets, and some old lines for bandages, or they will be charged extra for such in the establishment. Very siek and feeble persons will furnish an attendant who will pay board, or be charged for such extra.
